GODEFROY MAYER
ESTAMPES ANCIENNES

41, RUE BLANCHE
PARIS November 9th 1912

The Director
American Numismatic Society

Sir:

May I be allowed to ask you a great favour? I am publishing in the course of the forthcoming months an important catalogue of Americana from a collection which it took thirty years to compile. This catalogue of which the manuscript is now ready, will be divided and published in four distinct parts. viz:

Part first. Old paintings, drawings, busts, statuettes, medallions, medals and other objects of art of American historical importance.

Part second. Historical engravings and political caricatures relating to America.

Part third. Old engraved portraits of celebrated Americans.

Part fourth. Old views of American cities and scenery.

Each catalogue will be profusely illustrated with facsimiles representing the rarest items and each will contain four indexes (topography, artists, names and general subjects); these indexes will be most useful for any kind of research.

Perhaps the members of the American Numismatic Society may be glad to have a copy of these catalogues forwarded to them - gratis and postfree of course - and if you think so, would you kindly send me for
